

Subject-independent prediction of stable N2 within five minutes

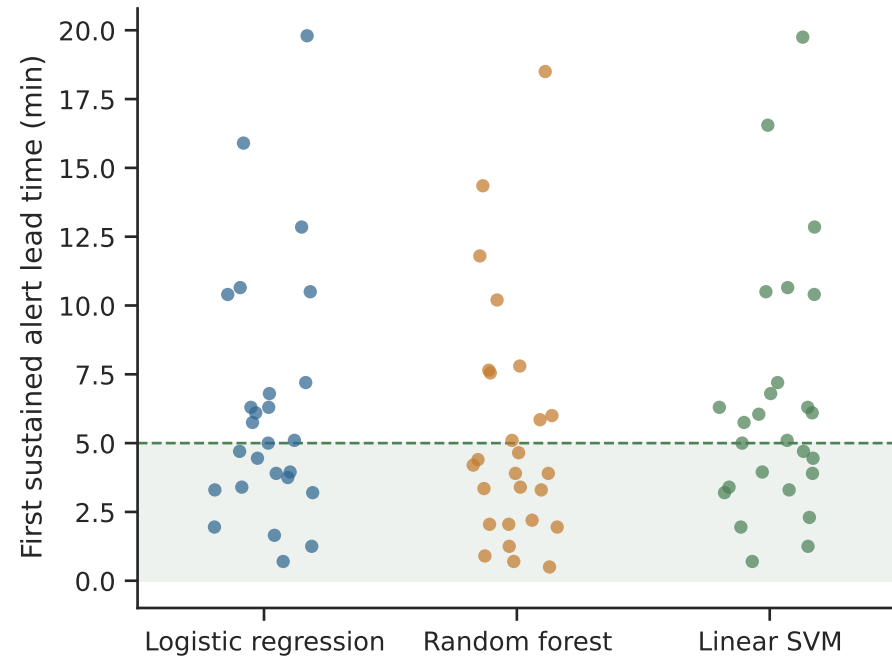

A LOSO performance across held-out participants

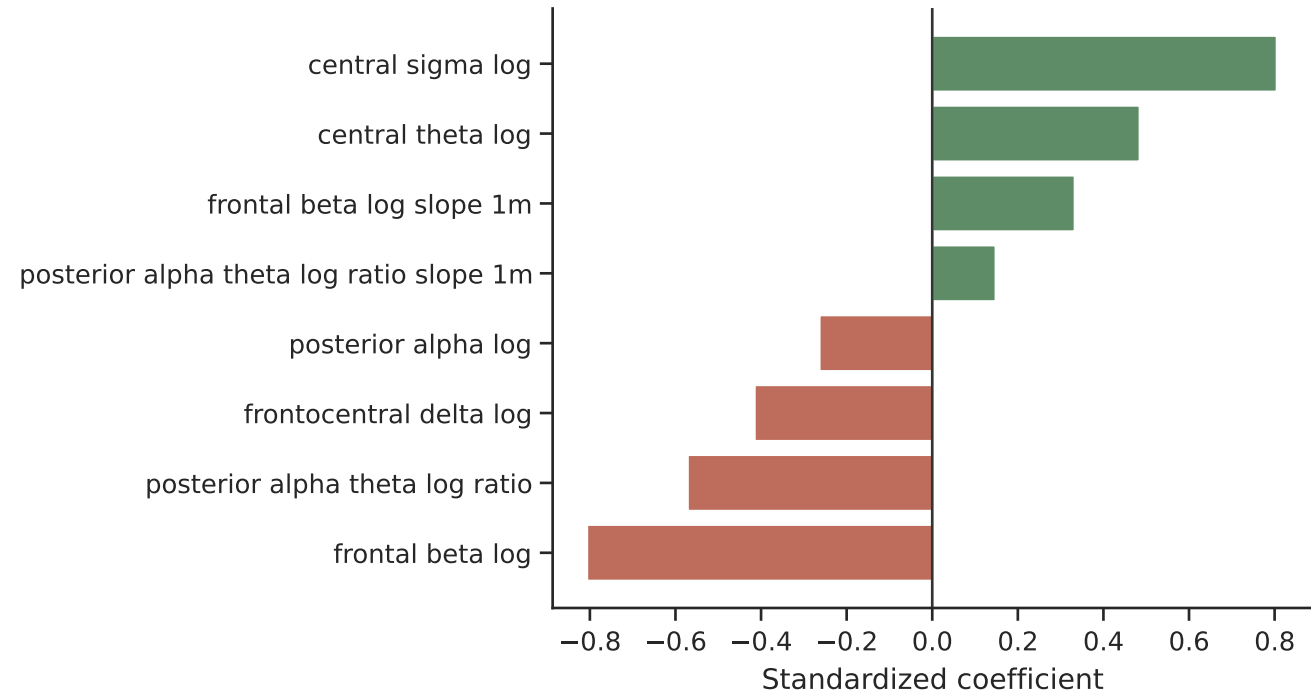

B Operating characteristics

C Alert timing and the target 0-5 min zone

D Final interpretable logistic model

Each point in panel A is one held-out participant. Panel C in-target alerts: logistic 13/28, random forest 16/28, SVM 12/28; each model had 2 no-alert cases.
